Product Description

For the ultimate performance in high-definition video and audio signal connectivity, trust Steren's advanced HDMI 1.3a High-Speed (Category 2) cables. These cables are ideal for HDMI-equipped HDTV sets, LCD and plasma screens, computer monitors and Blu-ray Disc™ players/recorders and HD set-top boxes. The cables support 10, 12, and 16-bit color depths for displaying Deep Color™ content. In addition, the cables accurately transfer multichannel digital audio, supporting Dolby® TrueHD and DTS-HD Master Audio™ digital audio formats. The fully molded cables are available in different configurations, including Type A-to-Type A flat and round, Type C-to-Type C round, and Type C-to-Type A round. HDMI 1.3-compatible cables are also backward-compatible with earlier HDMI formats.
