

The Sonos™ Digital Music System

Sonos is the first and only multi-room digital music system with a wireless, full-color LCD screen controller that lets you play all your music, all over your home, and control it all from the palm of your hand. Sonos liberates the digital music that's stored on your PC, Mac or Network Attached Storage box so you can listen to it in every room in your house—from the bedroom to the backyard. And you don't need to have a PC in every room, a music server or a wireless network to do it. Just place up to 32 Sonos™ ZonePlayers and speakers in the rooms of your choice and grab hold of your wireless Sonos™ Controller to access all your digital music, no matter where it's stored.

Sonos ZonePlayer

It distributes. It plays. It amplifies. For great sounding music, anywhere you choose.

- ⇨ Multi-room digital music
- ⇨ Superior audio quality
- ⇨ Easy set up
- ⇨ Support for multiple music sources

Sonos Controller

Gives you instant, wireless access to all your music and all your ZonePlayers, from anywhere. It's like having a giant jukebox at your fingertips.

- ⇨ Wireless, handheld control
- ⇨ Full-color LCD screen
- ⇨ Scroll wheel selector

Sonos ZonePlayer (ZP100)

Specifications*

Features

Multi-room digital music	ZonePlayers can go anywhere and connect wirelessly when a wired Ethernet connection is not available. Play the same song in different rooms, or different songs in different rooms—simultaneously. <i>NOTE: The first ZonePlayer you install must connect to your home network using a standard Ethernet cable.</i>
Superior audio quality	Built-in 50W/channel amplifier powers large or small speakers, with component-quality sound.
Easy set up	Automatic wired or wireless set up. Add new ZonePlayers with one button-press.
Analog Audio Input with digital encoding	Music from an external audio source (such as a CD player or portable MP3 player) connected to one ZonePlayer can be played by all other ZonePlayers in the system.

Technical Specifications*

Amplifier	50W minimum RMS per channel (8 ohms, 20-20 kHz, THD+N < 0.02%)
Analog audio connections	RCA-type Line In (auto-detecting), Line Out, Subwoofer Out (auto-detecting)
Ethernet connection	4-port switch, 10/100Mbps, auto MDI/MDIX
